SPA

The forest is one of the most important places there is. Not only for us human beings and for animals, but also in particular for us as furniture manufacturers. With wood as its renewable raw material, it's the basis for everything we produce.

### QUALITY – MADE IN GERMANY

For over 60 years, the Nolte name has been synonymous with high-quality furniture made in Germany. The youngest member now entering the family is Nolte SPA – exquisitely designed and manufactured in top quality at Nolte Küchen, Germany's favourite kitchen brand.

We manufacture our furniture nowhere else but in Germany – not least too because we can be certain that the infrastructure provides the optimum basis for producing in the most resource-friendly way possible. At our production sites, modern filter systems make sure that no pollutants get into the environment. All packaging material can be recycled without a problem, and a perfected logistics system guarantees that a new bathroom reaches its user by the shortest route.

For us, providing you with service you can rely on goes without saying – in exactly the way you have come to expect from Nolte!

# THE DETAILS MAKE THE DIFFERENCE

# THESE ARE THE BENEFITS YOU GET FROM NOLTE SPA

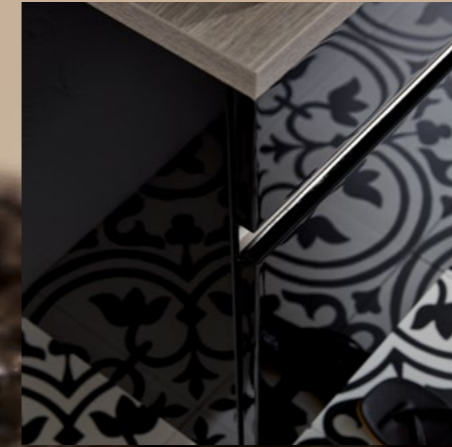

At Nolte SPA you can expect to get a perfected collection of on-trend colours and decor finishes. Typical Nolte too, you can always plan the right bathroom for your taste and demand.

Yet beyond this, it's the details that make the difference, setting our bathrooms apart from the run of the mill. Take a look for yourself!

Washstands are provided with a U-bend cut-out, including cosmetics tray, as standard.

Genuine lacquer fronts are optionally available with lacquered surrounding element.

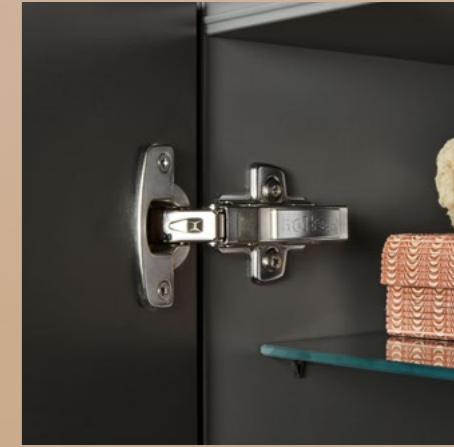

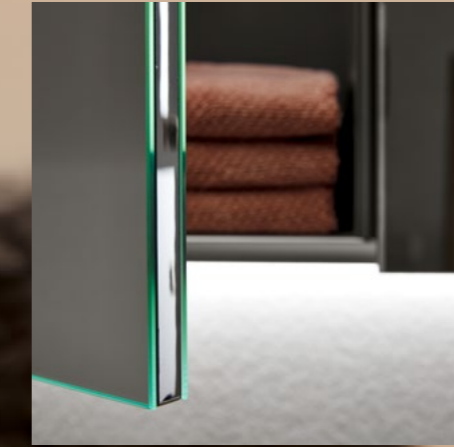

Heavy-duty fittings on washstands and accessory furniture provide the firmest possible attachment to the wall.

High-quality hinges as well as drawers and pull-outs for long-lasting quality.

Our range features a variety of mirror and mirror-cabinet options, some with doors that are mirrored on both sides.

Cabinet interiors are perfectly protected from dust and moisture so typical of the bathroom environment. This is ensured by the sealing edge in matching decor.

Thanks to the interior decor, cabinets in carcass colours are identical in decor both inside and out. On request, visible sides are also available in front colour for selected decors.

The LED Emotion lighting can be used in a variety of ways – whether for mirror cabinets, in open compartments or other cabinet types. Light colour temperature can also be changed – either by gesture or remote control.

MatrixArt – the handleless bathroom. The end-to-end finger pulls are available with optional LED Emotion lighting.

For handleless bathrooms, the side panel comes in a variety of finishes.

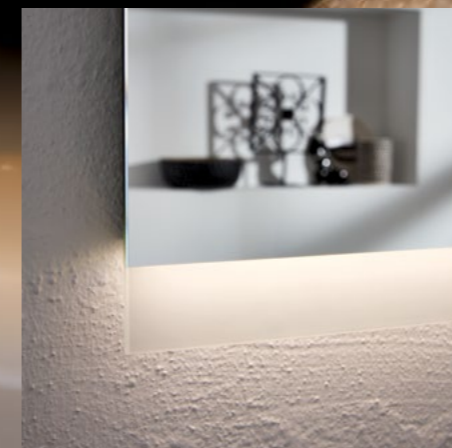

Our washstand base units are available in heights of 60 and 45 cm.

All lighting elements provide an IP44 protection rating which means they meet all requirements in the bathroom environment.

Nolte SPA also offers function mirrors that can be varied in width.

Nolte SPA not only gives you mineral-cast washstands and high-quality ceramic top-mounted washbasins but an extensive range of accessories too.
